

Preface	XI
WELCOME	XI
AUTOCAD AND ARCHITECTURAL DESKTOP: WHAT IS THE DIFFERENCE?	XII
WHAT IS AN INTELLIGENT OBJECT?	XII
WHO SHOULD READ THIS BOOK?	XIII
A note to current AutoCAD users	xiii
FEATURES IN THIS EDITION	XIV
What you will find inside	xiv
What you won't find inside	xiv
STYLE CONVENTIONS	XV
FEATURES NEW TO RELEASE 3	XV
A note on Release 3.3	xvi
HOW TO USE THIS BOOK	XVI
Files included on the CD ROM	xvi
INTERNATIONAL EXTENSIONS	XVII
SERVICE PACKS	XVIII
WE WANT TO HEAR FROM YOU	XVIII
ABOUT THE AUTHOR	XVIII
DEDICATION	XIX
ACKNOWLEDGEMENTS	XIX
Section I Introduction and Methodology	I
Chapter I General Overview and User Interface	3
INTRODUCTION	3
CREATE A SMALL BUILDING	3
The Autodesk Architectural Desktop Today Window	12
The Drawing Editor	14
Menus and Toolbars	15
The Command Line	16
Right-Clicking	17
Intellimouse	25
Modeless Dialog Boxes	25
Modal Dialog boxes	28
Explorer-Style Dialog boxes	29
PREREQUISITE AUTOCAD SKILLS	30
The Rules	30
Tools and Entities	31
FOR AUTOCAD R14 USERS	32

Auto Snap Enhancements	33
POLAR TRACKING	33
OBJECT SNAP TRACKING	33
SUMMARY	34
Chapter 2 Conceptual Underpinnings of Architectural Desktop	35
INTRODUCTION	35
PARAMETRIC DESIGN	36
DISPLAY SYSTEM	37
Layers	38
Overview and Key Features	39
The Display System Tool Set	39
Putting It All Together	40
Mastering the Display Manager	41
OBJECT STYLES	60
Overview of Key Features	60
Style Manager	61
ANCHORS	67
Overview of Key Features	68
Types of Anchors	68
Layout Tools	69
Explore Objects with Anchors	70
CONTENT LIBRARY	74
SUMMARY	74
Chapter 3 Work Environment Setup	75
INTRODUCTION	75
CREATING A NEW PROFILE	76
Install the CD Files	76
DRAWING SETUP	82
Layer Standards	86
Set the Layer Standard	87
Final Word on Drawing Setup	89
TEMPLATE FILES	89
Comparing templates	90
Drawing Conclusions	99
SUMMARY	100
Section II The Building Model	101
Chapter 4 Set Up the Building Model	103
INTRODUCTION	103
BUILDING A DIGITAL CARTOON SET	104
Considerations at the Start	104
PART I - SETTING UP A COMMERCIAL PROJECT	104
Setting Up the Project	105
Model and Sheet Files	110

Elevations	118
Sheet Files and the Cartoon Set	121
PART 2 - SETTING UP A RESIDENTIAL PROJECT	130
CONGRATULATIONS!	134
SUMMARY	134
Chapter 5 Beginning a Floor Plan	135
INTRODUCTION	135
ADDING WALLS	135
MODIFYING WALLS	144
ADDING DOORS AND WINDOWS	152
MODIFYING DOORS AND WINDOWS	162
ADDING PLUMBING FIXTURES	167
Use the DesignCenter to Add Content	168
VIEWERS	170
CREATING WALL MODIFIERS	174
FINISHING TOUCHES	178
PRACTICE EXERCISE	180
SUMMARY	181
Chapter 6 Core and Shell	183
INTRODUCTION	183
COLUMN GRIDS AND STRUCTURAL LAYOUT	184
Structural Members	184
Column Grids	189
Column Grid Labels and Dimensions	199
VERTICAL CIRCULATION	203
Stairs	204
Stairs and Railings	214
Ramps and Elevators	220
Finishing touches	223
CURTAIN WALLS AND WINDOW ASSEMBLIES	224
Adding and Modifying Curtain Walls	225
Understanding the Curtain Wall Style	230
Building a Custom Curtain Wall Style	239
Additional Curtain Wall Tools	258
CONGRATULATIONS!	259
SUMMARY	259
Chapter 7 Mastering Wall Cleanup	261
INTRODUCTION	261
WHAT IS WALL CLEANUP?	262
PART I – AUTOMATIC WALL CLEANUP	263
Rule 1 – Use Wall Graph Display	264
Rule 2 – Set the Default Cleanup Radius to 0"	265
Rule 3 – Practice Good, Clean Drafting	266
Rule 4 – Tweak the Cleanup Radius	271

Other Automatic Cleanup Tips	274
PART 2 – MANUAL WALL CLEANUP (USING WALL MERGE)	276
PART 3 – WALL COMPONENT PRIORITIES	281
Understanding Wall Component Priorities	284
SUMMARY	286
Chapter 8 Advanced Floor Plan Development.....	287
INTRODUCTION	287
WALL STYLES	288
Wall Style Basics	288
Guidelines to Successful Component Composition	298
DEMOLITION	315
Demolish Existing Items	315
Demolition Wall Style	315
REFINING EXTERIOR FENESTRATION	324
Creating a Window Style	325
Manipulating Window Anchors	330
ADVANCED TECHNIQUES WITH DOOR AND WINDOW STYLES	334
Creating a Custom Shaped Window	334
Creating a Custom Shaped Door	339
Manipulating Door and Window Display	341
Adding Custom Display Blocks in Plan	344
Adding Window Muntins	348
Exporting Styles to other drawings	350
CREATE A CUSTOM MULTI-VIEW BLOCK	352
ADDITIONAL EXERCISES	355
SUMMARY	356
Chapter 9 Horizontal Surfaces	357
CREATING ROOFS	357
Working with the One-Piece Roof	358
Working with Roof Slabs	366
CREATING SLABS	375
Build the Roof Plan File	377
Add the XREF to the Composite Model	381
CREATING FLOORS AND CEILINGS	382
Generate Spaces from Existing Walls	382
Generating Spaces with Attached Room Tags	384
Design changes and Generating Spaces	388
Generate Spaces from XREF Walls	388
SUMMARY	397
Section III Construction Documents	399
Chapter 10 Creating Reflected Ceiling Plans	401
INTRODUCTION	401

LOADING THE REFLECTED DISPLAY CONFIGURATION	402
WORKING WITH CEILING GRID OBJECTS	404
ADDING ANCHORED LIGHT FIXTURES	418
Attaching Mask Blocks to AEC Objects	423
OTHER CEILING FIXTURES	426
RESTORING THE FLOOR PLAN	435
SUMMARY	436
Chapter 11 Generating Schedules	437
INTRODUCTION	437
OVERVIEW AND KEY FEATURES	437
THE SCHEDULE TABLE TOOL SET	438
Putting It All Together	438
GETTING READY TO USE SCHEDULE TABLES	439
ADDING SCHEDULE COMPONENTS	440
EDITING SCHEDULE DATA	449
Identifying Automatic and User-Defined Properties	449
Style-Based Property Sets	452
PROPERTY SET DEFINITIONS	453
SCHEDULE TABLE STYLES	457
Schedule Table Style Data Content	463
ADDITIONAL SCHEDULE TOOLS	469
Renummer Data	469
Export Schedule Data	470
“Out of Date” Display Control Settings	471
SUMMARY	473
Chapter 12 Generating Annotation	475
INTRODUCTION	475
DIMENSIONING ADT OBJECTS	475
AutoCAD 2002 Note:	476
Loading an Appropriate Display Configuration	476
Automatic Placement of AutoCAD Dimensions	477
Using DesignCenter Dimensions	483
Live Dimensioning with AEC Dimensions	485
Important AEC Dimension Note:	485
DOCUMENTATION CONTENT	496
Final Word on Documentation Content	505
ADDING ADDITIONAL ANNOTATION AND DIMENSIONS	505
SUMMARY	506
Chapter 13 Generating Sections and Elevations	507
INTRODUCTION	507
ADDING THE SECTION/ELEVATION LINE	508
Creating an Interior Elevation	508
Updating and Modifying Section/Elevations	513

2D SECTION/ELEVATION STYLES	517
Creating a 2D Section/Elevation Style.....	518
2D Section/Elevation Styles Design Rules	525
EDIT AND MERGE LINEWORK	530
CREATING ELEVATIONS FROM AN XREF MODEL	536
ADDITIONAL EXERCISES	538
SUMMARY	538
Chapter 14 Plotting	539
INTRODUCTION	539
SHEET FILES	540
LAYOUTS	541
PAGE SETUP	541
Exploring Page Setup	541
VIEWPORTS	545
PLOT STYLE TABLES	545
PLOTTING	547
BATCH PLOTTING	549
ADDITIONAL EXERCISES	553
SUMMARY	554
Conclusion	555
Appendix A Wall Cleanup Checklist	557
AUTOMATIC WALL CLEANUP	557
Cleanup will occur with the following events:	557
Rule 1 – Use Wall Graph Display	557
Rule 2 – Set the Default Cleanup Radius to 0"	557
Rule 3 – Practice Good, Clean Drafting	557
Rule 4 – Tweak the Cleanup Radius	557
Other Considerations	557
MANUAL WALL CLEANUP	558
Considerations	558
WALL COMPONENT PRIORITIES	558
Considerations	558
Appendix B Additional Schedule Tools	559
Index	563
